**Authorization and Assignment, Informed consent**

I understand that health information may be released to insurance carriers or other professionals as deemed necessary. I hereby authorize Total Health Chiropractic to release any information you deem appropriate concerning me and my course of care to such professionals (insurance carriers, attorneys, adjusters ect...) in order to process any claim for reimbursement of charges incurred by me, and hereby releases Total Health Chiropractic, it's Doctors and Employees of any consequence thereof.

I authorize the direct payment to you of any sum I now or hereafter owe you by my attorney out of the proceeds of any settlement of my case, and by any insurance company obligated to make payment to me or you based in whole or in part upon the charges made for your services.

I understand that whatever amounts you do not collect from insurance proceeds (whether it be all or part of what is due) I personally owe you.

**Signature Needed on the next page...**

I, the undersigned, do hereby appoint Total Health Chiropractic the authority necessary to endorse and cash any checks, drafts or money orders which are made payable to the undersigned or a co-payee with this clinic when said payments are due to services rendered on behalf of the undersigned by the clinic.

I understand and agree that health and accident insurance policies are an agreement between an insurance carrier and me. Furthermore, I understand that while the doctor's office may process any necessary reports and forms to assist in collecting from the insurance company, and that any amount authorized to be paid directly to the doctor's office will be credited to my account on receipt, I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment. I also understand that if I suspend or terminate my care and treatments, any fees for professional services rendered me will be immediately due and payable. I will be responsible for any costs of collection, attorney's fee or court costs required to collect my bill.

I hereby authorize physicians and staff at Total Health Chiropractic to treat my condition as deemed appropriate. The doctor will not be held responsible for any pre-existing medically diagnosed conditions. I certify that the above information is correct to the best of my knowledge. I will not hold my doctor or any staff member of Total Health Chiropractic responsible for any errors or omissions that I may have made in the completion of this form.

Chiropractic, as well as all other types of health care, is associated with potential risks in the delivery of treatment. Therefore, it is necessary to inform the patient of such risks prior to initiating care. While chiropractic treatment is remarkably safe, you need to be informed about the potential risks related to your care and allow you to be fully informed before consenting to treatment. Chiropractic is a system of health care delivery and therefore, as with any health care delivery system, we cannot promise a cure for any symptom, condition or disease as a result of treatment in this office. An attempt to provide you with the very best care is our goal, and if the results are not acceptable, we will refer you to another provider who we feel can further assist you.

**Specific risk possibilities associated with Chiropractic Care:**

**Soreness-** Chiropractic adjustments and physical therapy procedures are sometimes accompanied by post treatment soreness. This is a normal and acceptable accompanying response to chiropractic care and physical therapy. While it is not generally dangerous, please advise you doctor if you experience soreness or discomfort.

**Soft tissue injury-** Occasionally Chiropractic treatment may aggravate a disc injury, or cause other minor joint ligament, tendon, or other soft tissue injury.

**Rib injury-** Manual adjustments to the thoracic spine, in rare cases, may cause rib injury or fracture. Precautions such as pre-adjustment x-rays are taken for cases considered at risk. Treatment is preformed carefully to minimize such risk.

**Physical Therapy Burns-** Heat generated by physical therapy modalities may cause minor burns to the skin. This is rare, but if it occurs, you should report it to your doctor or staff member.

**Stroke-** Stroke is the most serious complication of chiropractic treatment. The most recent studies estimate that the incidence of this type of stroke is 1 in every 5 million upper cervical adjustments.

**Other problems-** There are occasionally other types of side effects associated with chiropractic care. While these are rare, they should be reported to your doctor promptly.

If you have any question concerning this form or the above statements, please ask your doctor.

**Having carefully read the above, I hereby give my informed consent to have chiropractic treatment administered.**

# Patient Health Information Consent Form

We want you to know how your Patient Health Information (PHI) will be used in this office, and your rights concerning those records. Before any health care operations begin, you must read and sign this consent form, stating that you understand and agree to how your records will be used.

If you would like a more detailed account of our policies and procedures concerning the privacy of your Patient Health Information, we encourage you to read the HIPAA NOTICE that is available at the front desk before signing this consent.

1. The patient understands and agrees to allow this chiropractic office to use their Patient Health Information (PHI) for the purpose of treatment, payment, healthcare operations, and coordination of care. As example, the patient agrees to allow this office to submit requested PHI to his/her health insurance company (or companies) for the purpose of payment. Be assured that this office will limit the release of PHI to the minimum required by insurance companies for payment.
2. The patient has the right to examine and obtain a copy of his/her own health records at any time, or request corrections. The patient may ask which disclosures have been made, and submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree to those restrictions.
3. A patient's written consent need only be obtained once for all subsequent care given in this office.
4. The patient may provide a written request to revoke consent at any time during care. This will not effect the use of those records for prior care, but will apply to any care given after the request has been presented.
5. For your security and right to privacy, all staff in this office have been trained in the area of patient record privacy, and a privacy official has been designated to enforce these procedures. We have taken all possible precautions to assure that your records are not readily available to those who should not have access to them.
6. Patients have the right to file a formal complaint with our privacy official about any possible violations of these policies and procedures.
7. If the patient refuses to sign this consent for the purpose of treatment, payment and healthcare operations, the chiropractic physician has the right to refuse care.

I have read and understand how my Patient Health Information will be used, and I agree to these policies and procedures.
